

Student Studying Habits

Results identified:

- Students who spent more hours studying alone had greater gains.
- Students who took courses requiring both significant reading (more than 40 pages per week) and writing (more than 20 pages over the course of the semester) had higher rates of learning.
- Students reporting faculty with high expectations had higher rates of learning.

How much should you study?

Students with 12 hours of class should spend an additional 24 to 36 hours per week studying outside of class.
