

Collaboration is important in all areas of study. So I recommend talking to other students for help. However, there is a rule that must be followed: **while discussing homework solutions in a group of two or more no one is allowed to write anything down, and each student must prepare their solution in isolation.**

# Cheating

Anyone caught cheating will:

- Receive a zero on the assignment.
- Be dropped from the course with a WF.
- Be reported to the SCCS.
