

# Gitlab

The screenshot shows a web browser window with the address bar displaying `https://gitlab.metatheorem.org/users/heades/contributed`. The page title is "Harley Eades · GitLab". The navigation bar includes links for Projects, Groups, Activity, Milestones, and Snippets, along with a search bar and a user profile icon for "Harley D.". The main content area features a profile card for "Harley Eades" (@heades) with a circular profile picture and the text "Member since September 30, 2017". Below the profile card are tabs for Activity, Groups, Contributed projects (which is selected), Personal projects, and Snippets. The "Contributed projects" tab shows a list of two projects:

Project Name	Stars	Updated
A Attack Tree Project / attack-tree-expressions	0	updated a month ago
H CSCI3300 / heades	0	updated a month ago

THIS IS GIT. IT TRACKS COLLABORATIVE WORK  
ON PROJECTS THROUGH A BEAUTIFUL  
DISTRIBUTED GRAPH THEORY TREE MODEL.

COOL. HOW DO WE USE IT?

NO IDEA. JUST MEMORIZE THESE SHELL  
COMMANDS AND TYPE THEM TO SYNC UP.  
IF YOU GET ERRORS, SAVE YOUR WORK  
ELSEWHERE, DELETE THE PROJECT,  
AND DOWNLOAD A FRESH COPY.
